

3LEMEDC315FW

GENTLE BREEZE™ DRYING SYSTEM AND WRINKLE PREVENT

This system is designed to minimize over drying and shrinking.

AutoDry® sensor, monitors temperature levels and stops the cycle when the clothes are dry for excellent drying results while optimizing energy.

Clothes continue to tumble every 5 minutes without heat after the drying cycle is complete to help prevent wrinkles with wrinkle prevent option in 3LEMEDC300YW model. Dry your clothes faster and safer with centennial® dryers from MAYTAG.

Commercial Dryer

Maximum load capacity 15kg

4 drying temperatures: low, medium, high, air fluff Auto dry system

Timed drying upto 70 minutes

Cold air drying upto 30 minutes

5 automatic drying programmes

2 programme options

Rotary electromechanical controls

Maximum power consumption: 4600w
