

## WDIL 75125 MEA

### Integrated washer dryer

Washing capacity : 7 kg  
Drying capacity : 5 kg  
16 washing programmes  
12 drying programmes  
Maximum spin speed : 1200 rpm  
Electronic control panel  
Electronic washing management  
Automatic water regulation  
Delay timer 1-24h  
Balance control system  
Foam control system  
30 cm wide porthole  
Reversible door  
Function buttons for : on/off, delayed programming, extra rinse, spinning exclusion and easy ironing

### External Dimensions

- 820/900 mm
- 596 mm
- 545 mm

## INVERTER MOTOR KEEPS YOUR WASHER MUCH LONGER

The Inverter Motor provides extreme energy efficiency while improving the washing results. The calibrated rotation during all stages of the programme improves the detergent's cleaning power. Every movement is designed to remove stains more effectively, while looking after your clothes. The excellent control of the engine reduces vibrations at all stages, even during spinning, ensuring greater quietness.
