Rapid cycle
Self-cleaning cycle
Water Balance+
Anti-odour cycle
Dark fabric cycle

External Dimensions

- ① 850 mm
- ➔ 595 mm
- ② 540 mm

WATER BALANCE+ ONLY USE WATER THAT IS ESSENTIAL, AND NOT A DROP MORE.

Indesit understands that water is precious. Therefore, the Innex washing machine optimises the consumption of water throughout the entire washing process, from the first phase till the end of the rinse. Thanks to the intelligent Water Balance+ Technology, sophisticated sensors are utilized to ensure that the amount of water used is only what is essential and necessary. Saving water of course means also Saving the energy needed to heat it up.
